In accordance with our phone conversation/interview, please consider the following amendments for examiner's amendments.

12. (currently amended) A turntable for manual turning, said turntable being in the shape of a Reuleaux triangle and having a gerotor attached thereto, said gerotor having three substantially identical lobes, [~~at least one of said turntable and~~] said gerotor having a substantially planar bearing surface [~~thereon~~] on its underside .

Cancel claims 13 and 14.

19. Turntable apparatus of claim 18 wherein [~~at least one of said gerotor and~~] said gerotor guide has a substantially planar bearing surface [~~thereon~~] on its underside.

I would be glad to discuss the amendments at your convenience.

Respectfully,

William L. Kraye
